GLAD TO HAVE YOU IN CLASS!!

Dear Parents or Guardians,

This letter is to inform you of the upcoming projects in the fiber tech class in which your student is taking part in. All the students will be constructing up to 4 different projects during the course of the semester. We will be constructing a pillowcase, quilt, and stuffed animal.

With that being said, students are required to purchase their poly fill, batting, and fabrics for their projects. The FCS department provides a majority of the required supplies but due to student free choice over colors, designs, and such this will be their responsibility.

On average a project can cost between \$15-200 dollars depending on the student's chosen project. There are a variety of options to order fabric from. My recommendations are below:

- Quilts and More
- Ribbon and Rails
- Walmart (Not the greatest Quality)
- Enchanted Room (Glendive)
- Online Fabric Stores (Use Caution, but has BEST clothing fabric variety)

By signing this letter you acknowledge that this class will require students to make high purchases to complete projects. There may be instances where we have scrap fabric on hand to be used by students but there is no guarantee.

If this will cause problems financially for you or the student please contact me as soon as possible. For any further questions, please email me at [Cryan@sidneyps.com](mailto:Cryan@sidneyps.com) or call before/after school.
