

UNIT 1 – CHAPTER 1

CELLS - review notes

1. Identify the parts of an ANIMAL and PLANT cell (ch. 1) – How are they different?
2. What is the CELL THEORY? (ch. 1)
3. Know the 3 ways some Single-celled organisms are able to move & WHY do they need to move? (ch. 2)
4. Know the 6 Kingdoms – a. Cell Characteristics
 - b. 2 other characteristics
 - c. an example of each (ch. 3)
5. How are Multicellular Organisms organized? Name an example from each group (ch. 4)
6. VOCABULARY: chapters 1-4

Cell

Cilia

Diffusion

Flagellum

Fungi

Kingdoms

Nucleus

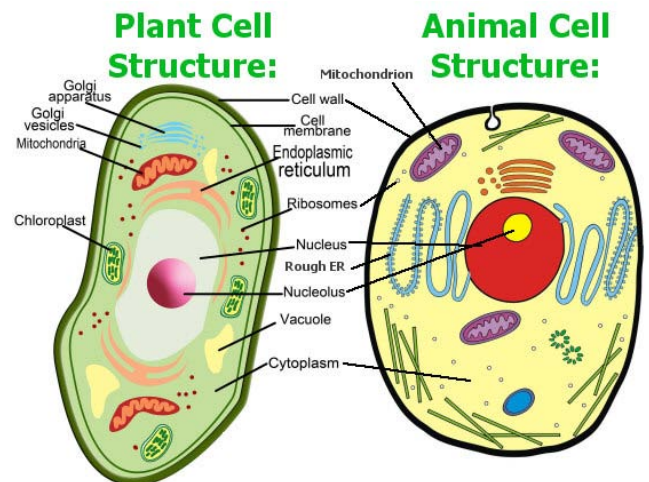

Organ

Organ systems

Osmosis

Protists

Tissue

EXTRA CREDIT: Name at least 2 human body systems and ONE major organ in each.
