EDUCATION PHILOSOPHY, OBJECTIVE & GOALS

The District's educational program will seek to provide an opportunity for each child to develop to his or her maximum potential. The objectives for the educational program are:

- ◆ To stimulate intellectual growth and curiosity;
- ◆ To provide fundamental career concepts and skills.
- ◆ To help the student develop sensitivity to the needs and values of others and a respect for individual and group differences;
- ◆ To develop an awareness of and appreciation for cultural diversity.

The administrative staff is responsible for apprising the Board of the educational program's current and future status. The primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. The Board gives priority in the allocation of resources, including funds, time, personnel and facilities, in fulfilling this purpose. The Sidney School Board of Trustees is governed by the Office of Public Instruction, educational law and other laws of the State of Montana.
